Dear Dale

Thankyou for your time today about our lease.

After 18 years our photocopier has died and we have had it looked at and the motor is no longer repairable.

We have hunted around and found a model in Albany for \$2800 plus GST. Currently they are worth \$3700 new but the company in Albany is prepared to discount it as we are a Historical Society.

Is there any chance that Council could assist with this. We appreciate what Council does do for us and we only ever ask for assistance when we actually need something.

We have put in a great deal of time this year expanding the workspace at the Museum which is a valuable asset for this community.

Yours sincerely

Bev McGuinness
