Additional amendments as per Mid Year Budget Review adopted by Council on 26th March 2019.

Note 5 (a): MAJOR VARIANCES

For the purposes of Local Government (Financial Management) Regulation 34 regarding levels of variances for financial reporting, a variance of 10% or greater of the annual budget estimates to the end of the month to which the report refers for each program area in the budget, as a level that requires an explanation or report, with a minimum dollar variance of \$10,000.

This same figure is also to be used in the Annual Budget Review to be undertaken after the first six months of the financial year to assess how the budget has progressed and to estimate the end of the financial year position.

A second tier reporting approach shall be a variance of 10% or greater of the annual budget estimates to the end of month to which the report refers for each General Ledger/Job Account in the budget, as a level that requires an explanation, with a minimum dollar variance of \$10,000.

Noting that as Council adopts an annualised Budget, the Director of Corporate and Community Services may vary the month end Budget estimates from time to take into consideration the vagaries and variances with

respect to project timing and scheduling to allow for more realistic and relevant comparisons to be made, subject to the total of the Council adopted Budget not being altered.
